

Akshay Kumar Dwivedi

Greater Noida

8864873703

akshaydwivedi707@gmail.com

Summary

Computer Science undergraduate specializing in full-stack development with React.js, Node.js, and Express.js, with strong foundations in Data Structures, Algorithms, OOP, and DBMS. Experienced in building scalable web applications, designing RESTful APIs, and developing AI-based systems such as face recognition solutions. Proficient in implementing authentication, CRUD operations, and performance optimization to improve system efficiency and user experience. Adept at problem-solving, debugging, and version control using Git.

Education

I.E.C. College of Engineering and Technology, Greater Noida
Bachelor of Technology (B.Tech) – Computer Science
Engineering Expected Graduation: March 2027

Skills

Programming Languages: Java, Python, JavaScript
Frontend Development: HTML, CSS, React.js, Next.js
Backend Development: Node.js, Express.js
Databases: MongoDB, MySQL
Core Concepts: Data Structures & Algorithms, OOPs, DBMS
Tools & Technologies: Git, VS Code, AI-assisted development (GitHub Copilot, ChatGPT)
Other Skills: RESTful API Development, Problem Solving, Debugging

Websites & Social Links

Projects

E-Commerce Website (Full-Stack Project)

- Built a scalable full-stack e-commerce platform using React.js, Node.js, Express.js, and MongoDB
- Implemented JWT-based authentication, product management, and shopping cart functionality
- Designed responsive UI improving cross-device usability by ~25%
- Developed and integrated RESTful APIs supporting CRUD operations and efficient client-server communication
- Optimized application performance and reduced page load time by ~30%

Social Media Web Application

- Developed a full-stack social media platform with secure user authentication, profile management, and personalized user feeds.
- Implemented core social networking features including post creation, likes, comments, and follow/unfollow functionality.
- Built real-time messaging and notification systems using Socket.io to enhance user engagement and communication.

ADDITIONAL INFORMATION

- Practicing Data Structures & Algorithms on LeetCode and improving problem-solving skills
- Strong understanding of backend architecture and API design principles
- Quick learner with a passion for building scalable and real-world software solutions
